Teflon series

Teflon is also called polytetrafluoroethylene (PTFE). This series of products have excellent high temperature resistance, wear resistance, corrosion resistance, self-lubrication and excellent flame retardancy. They are the best choice for fire elevators and fire protection accessories.

New patented product

Teflon coated iron rollers, this product inherits the fireproof performance of Teflon rollers. At the same time, when the rigid support is lost under the condition of Teflon ultra-high temperature, the iron groove can with back support.

► Fireproof Accessories

Fireproof accessories, the rubber can meet the V-O fireproof rating and can provide excellent shock absorption under normal conditions.

Product Parameters

- 1, Sensing Method: infrared motion sensing of human hand.
- 2, Sensing Objects: human hands, gloves
- 3, Gesture Effective Range: distance from 5 to 15cm; angle: ± 30 degree horizontally forward of the center of the device
- 4, Power Voltage: input rated DC12-24V
- 5, Device Consumption: Maximum 1 W
- 6, Relay Pull-in time: 2 seconds
- 7, Available Time Interval between up calling and down calling: 1 second
- 8, Working Environment Temperature: $-20^{\circ}\text{C} \sim 60^{\circ}\text{C}$
- 9, Storage Temperature: $-20^{\circ}\text{C} \sim 70^{\circ}\text{C}$
